11. Why should you be elected? I am the Candidate that wants your individual participation in proposing and investigating laws in the Nevada Legislature. Last year, my wife and I went to Carson City to see how our legislature operates. It scared us to death. They need so much help. 800 bills are introduced. An Assemblyman has 90 days to completely understand them and sometimes votes on bill knowing nothing about them. He only has the help of a Temp Secretary and of course there are many lobbyists. I will value the voice of the individual voter over the lobbyist's presentation. Assemblymen in the last Legislative Session voted 96% yes in about 600 bills passed. I will break the record in voting No, because I will not vote Yes just because other committee's voted "Do Pass".
12. What is the most pressing issue facing the area you would represent and what will you doing about it? The most pressing issue is the lack of communication and representation of you. Major problems such as education, growth, water, health care and wasteful spending will not be solved until we demand change by our vote and our involvement in the passage of Nevada laws. I will invite all residents of Assembly Dist #1 to be involved in the investigation and creation of the proposed Nevada laws. I will propose to televise the Nevada Legislative sessions so that all Nevadans can see what my wife and I saw when we went to Carson City. Our tax dollars should not be spent on government lobbyists to fight against us in the investigation and creation of Nevada laws. Nevada needs a legislature in session at least every 6 months to be more responsive to the ever-changing problems that we face. Help me Help us! Vote and get involved.
13. FYI: School District shall cut the Budget of Administrators in half and spend that money for books and supplies in the classroom.

State and Local Governments should cut wasteful spending and increase productivity. We should lower taxes by the amount saved.
